

## Drafting Technologist Saskatoon, SK

### You are:

Mechanically inclined with a keen eye for detail. You have a team-first mentality and joining an industry-leading team aligns with who you are. You enjoy solving technical problems and working with people across disciplines. You are not intimidated by cutting edge technology, shifting priorities, or interacting with customers when required. You can effectively manage time and priorities to meet deadlines, are passionate about safety, and strive to ensure quality in your work product. ***You seek to grow your skillset in an organization that provides on-the-job learning experience and training to advance your career.***

### You have:

- A diploma in Design and Manufacturing Engineering Technology, Engineering Design and Drafting Technology, or a relevant diploma
- Knowledge of 2D and 3D CAD software. Autodesk AutoCAD and Inventor considered an asset.
- Proficiency with Microsoft Office

### A Drafting Technologist:

- Develops and prepares engineering designs and drawings from preliminary concepts, sketches, and other data
- Operates computer-assisted design (CAD) and drafting workstations
- Completes documentation packages and produces drawing sets
- Ensures assigned portions of projects conforms to scope, schedule, and budget
- Communicates potential issues or needed changes relating to scope, budget, or schedule to the Project Coordinator
- Works with Project Delivery Office to control scope, schedule, and budget on assigned projects
- Logs projects daily, accurately, and completely in company ERP system
- Participates in company safety program and meetings
