

## **Magnetic Particle Inspector – 12 Week Contract Regina, SK**

### **We are:**

Kova Engineering (Saskatchewan) Ltd. is a diverse and unique engineering and consulting company with over 25 years in the crane and lift equipment industry in Saskatchewan. We provide exceptional and personalized services to our customers and are constantly growing our scope of services to include innovative technologies and techniques. The key to our success is our employees who are hardworking, professional, and value the safety of their co-workers and our customers.

### **A Magnetic Particle Inspector:**

- Performs NDT examinations on pipe joints preparations
- Interprets and/or evaluates NDT examination results and findings
- Prepares organized reports detailing examination findings
- Reviews and interprets customer specifications and requirements to ensure assessment compliance
- Instruct and supervise code work for inspection trainees
- Provide customer with ongoing information about job status, inspection reports, code information, and examination procedures

### **You are:**

You are an experienced NDT technician who can adapt to shifting priorities and schedules. Cooperating with others to meet objectives, training new recruits, and ensuring compliance with codes and customer specifications are what you enjoy at work. You are comfortable with shift work and schedule variations. You can effectively manage time and priorities to meet deadlines, care about safety on the job site, and enjoy interacting with customers. In the past, you've worked on a construction or industrial site, in a fabrication shop, or worked with machinery and equipment.

### **You have:**

- Certification from NRCan in MT
- A minimum of Grade 12 or GED education
- A valid driver's license
- Computer skills including Microsoft Office

### **How to apply:**

Submit your resume to [hr@kova.ca](mailto:hr@kova.ca). Only those selected for an interview will be contacted by email.

### **Please note:**

Due to COVID-19, we will not be accepting walk-in applicants at our office.
